

Climate Change and Energy

to 2020 and onwards

Overview to this CD-ROM

This CD-ROM was published following the IPIECA Workshop on 'Climate Change and Energy'. It accompanies the [summary report](#) of the same title.

The contents of the CD-ROM are as follows:

- [Scene set](#) (sets the scene for the workshop with an introduction to IPIECA and an overview of the climate change issue)
- [Workshop programme](#)
- Speakers' presentations made during each of the five workshop Sessions and in the Panel Discussion at the end.
- [Summary report](#)

How to use the CD-ROM

The contents of this CD-ROM are bookmarked in the index to the left of this page. Click on a bookmark to view the respective pages. The speakers' presentations can also be accessed via links in the [Workshop programme](#).
