

## COP24 side event: Transforming transport – is electrification the only answer?

**Tuesday**  
**11 December 2018**  
**15:30-18:30**

*Location:* IETA Business Hub,  
Pavilion H-5

*Includes networking  
session and refreshments.*

THE GLOBAL OIL AND GAS  
INDUSTRY ASSOCIATION  
FOR ENVIRONMENTAL  
AND SOCIAL ISSUES

 IPIECA

 @IPIECA

[www.ipieca.org](http://www.ipieca.org)

Transport is a major global emitter of greenhouse gases. And as living standards and population rises, the number of miles travelled is expected to increase. So, how can we transform the transport sector to help meet the Paris Agreement goals? Is electrification the only answer? Even for trucks, planes and ships? Or do we need a broader range of solutions?

### **MODERATOR:**

**David Hone**

Shell, Chief Climate Change Adviser

University College London - IPIECA side event

---

**Wednesday**  
**5 December 2018**  
**11:30-12:30**  
*Location:*  
IETA Business Hub

### **CO<sub>2</sub> Capture Project Study: CCS in nationally determined contributions and mid-century strategies**

Chevron - ERM side event

---

**Monday**  
**10 December 2018**  
**14:00-15:30**  
*Location:*  
Polish National Pavilion

### **Making clean air real with natural gas**

PGNiG side event

---

## **IPIECA**

IPIECA is the global oil and gas industry association for environmental and social issues. It develops, shares and promotes good practices and knowledge to help the industry improve its environmental and social performance, and is the industry's principal channel of communication with the United Nations.

Through its member-led working groups and executive leadership, IPIECA brings together the collective expertise of oil and gas companies and associations. Its unique position within the industry enables its members to respond effectively to key environmental and social issues.
