Singapore Maritime Week (SMW) is the leading maritime event in Singapore. Driven by the Maritime and Port Authority of Singapore (MPA), SMW gathers the international maritime community in Singapore for a week of conferences, dialogues, exhibitions and social events in celebration of all things maritime. The range of activities and events organised by MPA, the industry and research and educational institutions, as well as the cosmopolitan profile of participants, reflect the vibrancy and diversity of Singapore as a major international maritime centre.

SMW has grown in significance since the inaugural event in 2006, attracting more participants and co-located partners from around the world. Participants can experience something new every year, as activities are added to the line-up, and as eminent speakers share their insights and participate in dialogues on topical maritime issues. This dynamism and the good range of issues discussed during SMW are major draws for maritime decision-makers alongside with many business networking platforms.

This is why Singapore Maritime Week is all about PEOPLE, IDEAS and OPPORTUNITIES for the maritime community.
PRE-CONFERENCE WORKSHOPS April 25, 2017

(9:00 am – 1:00pm)

WORKSHOP A: SALVAGE CONTRACTS AND REMUNERATION

Legal frameworks can be complex and technical understanding requirements are on the rise. This workshop will provide participants with practical knowledge to understand various forms of salvage contracts, scenarios on claims for wreck removal and to identify proper claim accountability and remunerations.

KEY TOPICS
- Key issues in the contract
- Assessing the liabilities of the ship owners and the contractors
- Understanding the mechanism of Special Compensation P&I Club Clause (SCOPIC)
- What should be considered as “Fair Rate”?  
- Salvage Claims - Legal Issues faced by Shipowners and their Insurers in Casualties

(9:00 am – 1:00pm)

WORKSHOP B: INTEGRATED RESPONSE PLANNING AND EXECUTION

An integrated emergency spill response plan requires intensive planning to ensure timely and coordinated response. It is therefore crucial to identify a complete and operational oil spill management strategy. This workshop covers key aspects in response planning, formulating strategies and decision support technologies when executing a response.

KEY TOPICS
- Identifying the different aspects of response strategies
- Designing a framework to effectively plan and execute a response
- Developing strategies in the following areas: risk assessment, containment, resource deployment, technology intervention
- Incorporating strategies along with response goals
- Safety, physical and environmental considerations
ORGANISED BY THE MARITIME AND PORT AUTHORITY OF SINGAPORE (MPA), the biennial International Chemical and Oil Pollution Conference and Exhibition (ICOPCE) returns for its 10th edition as Asia’s leading platform focusing on the preparedness and response strategies for oil and chemical spills.

WHO YOU WILL MEET:
